

SPEAKER: Alright Senator Goodrich is challenging the ruling of the Chair. We are going to vote on the ruling of the Chair. Senator Mahoney.

SENATOR MAHONEY: Speak to that motion?

SPEAKER: Yes sir.

SENATOR MAHONEY: I just think that little Senator Johnny DeCamp today has had his cake and is trying to eat it too. I think that very definitely Mr. President, that we should have to on this occasion to over rule you and I know that you won't feel that bad about it. But he did not fully explain what he was doing a that these other bills that had been heard on that Wednesday night ought to have had their opportunity to be voted upon up or down. It would only take a minute or two no long debate. I think that 656 and the other bills have their opportunity the same time here today.

SPEAKER: Senator Schmit.

SENATOR SCHMIT: I just would defer to Senator DeCamp.

SENATOR DE CAMP: Mr. President, Little Johnny DeCamp doesn't care either way. I will accept the ruling of the Chair. If 656, I think that we voted upon it two or three times already but if they want to vote on it again, that is up to the Chair. I think that when they examine it more closely anyway they will discover that they do not want it, they have got problems with it.

SPEAKER: Senator Warner.

SENATOR WARNER: (mike not activated)

SPEAKER: Does anybody see any further need for discussing this? Alright the Chair is going to rule that it has been discussed, everybody has understood....Senator Chambers.

SENATOR CHAMBERS: Mr. Speaker, if everybody or if there was an opportunity after the motion was adopted to over rule the Chair and no attempt was made to overrule the chair and we proceeded to the next order of business, is that motion in order now to try to overrule the Chair when we have taken up a bill for discussion?

SPEAKER: Well it probably isn't but the Chair is going to rule that he can be overruled. Senator Schmit.

SENATOR SCHMIT: Mr. President, I have only one comment to offer, and that is this. If there are 35-40 bills up there that have not been discussed at all. In the interest of fairness and with all due difference to my good friend Senator Mahoney, LB656 enjoyed an hour and a half discussion. Senator Johnny DeCamp has a bill of his own up there which was discussed and not advanced. That also goes to the bottom of General File. Now we talk about being fair in this body and there are some things that happen and some things that we can control and some things that we can not control. But is it any more fair to spend some more time which have already enjoyed an hour and a half of discussion on this floor and thereby provide that 20-30 bills will not have even 10 minutes
